

Managed Security Solution Providers

Managed Security Capabilities	Masergy	Dell SecureWorks	Alert Logic	NTT Solutionary	IBM ISS
Advanced security analytics and global threat intelligence correlation	●	●	●	●	●
Vulnerability management of networks, servers, applications and databases	●	●	●	●	●
Continuous monitoring and management of security incident and event management systems	●	●	●	—	●
Continuous monitoring and management of intrusion detection and intrusion prevention systems (IDS/IPS)	●	●	●	—	●
Continuous monitoring and management of firewalls including unified threat management systems	●	●	—	●	●
Support for cloud-based infrastructure (public and private)	●	●	●	●	●
Extended long term retention, correlation and threat data trending	●	◐	●	●	●
Adaptive network behavioral analysis and correlation of all network, threat and anomalous activities	●	—	◐	◐	—
IDS/IPS signatures automatically correlated with integrated vulnerability scan results	●	—	—	—	—
Integrated security architecture with hybrid (premise/cloud/virtualized) deployments	●	—	—	—	—
Packet header capture and storage for on-going analysis	●	—	—	—	—
Industry-leading client experience (24/7 Security Operations Center with continuous monitoring, custom reporting, and incident response)	●	—	—	—	—
